BHUTTO SAYS CEASE-FIRE WILL REMAIN TENUOUS

London REUTERS in English 1240 GMT 30 September 1965--E (FOR OFFICIAL USE ONLY)

(Text) London--Pakistani Foreign Minister Zulfiqar Ali Bhutto said today that the Indo-Pakistan cease-fire was tenuous and renewed fighting with India would set the world aflame. He told a press conference "we are now mentally (?attuned) to face a war of extermination."

Mr. Bhutto said the cease-fire would remain tenuous unless the Kashmir problem was equitably settled. He repeated Pakistan's proposal at the U.N. for withdrawal of Indian and Pakistani troops from the disputed territory and the setting up of machinery for a Kashmir plebiscite.

Asked if the American Central Intelligence Agency had interfered in the Kashmir dispute, Mr. Bhutto said: "I categorically deny it." Asked if he believed the second Afro-Asian conference would be held in November, he said: "It seems to be getting into the background."

Mr. Bhutto said he could not rule out a postponement of President Ayub Khan's scheduled visit to Britain. The foreign minister flies to Rawalpindi tomorrow for consultations.
